

ABSTRACT

According to one aspect of the present invention, there is provided a document
browsing system for storing, in response to a user request, bookmark information
5 relating to a document presentable to a user through an interpreter, the document
comprising mark-up language and being providable to the interpreter by a document
server, the system comprising a document processor for inserting in the document prior
to the document being presented to the user additional mark-up language for enabling
the user request to be made through the interpreter, and a data store for storing the
10 bookmark information in response to the user request.
